WE TRANSFORM CHALLENGES

With the lifting of travel restrictions, hotels are just in their operating models based on three key trends.

- Firstly, serving a different mix of customers including domestic and returning international leisure travel and digital nomads working remotely.
- Secondly, dealing with lower staffing levels, higher energy prices and increased sustainability goals.
- Finally, in a post pandemic world, there is an even greater need to create safe, comfortable and relaxing spaces for guests with over 70 years of HVAC.

Expertise, Hitachi cooling and heating is delivering practical ways to address these trends.

New types of customer

Do you have difficulty finding space for HVAC equipment or wish you could more easily re-configure it for changing needs?

Lower staffing levels, higher energy prices & sustainability goals

Are your energy bills and maintenance costs increasing?

Optimizing IAQ, promoting well-being

Are you investing in new or revamped spaces for improved guest comfort and experience?

Flexibility

Integrate HVAC seamlessly into building plans or refurb with flexible solutions that can adapt to changing needs

Sustainable growth

Whether new build or a refurb, reduce energy cost, simplify maintenance and meet your sustainability goals

Health & well-being

Creating safe, comfortable and relaxing spaces for guests with Hitachi's 3R framework – right temperature, right feeling, and right purity
